I knew you'd have the answer! Thanks dear one! You are doing an amazing job with note taking!! I have appreciated your keep us updated on chat during the main sessions! 😊

Content Coaching Community . Cultivation is addressing the problems. Shift in western secular thought  
Barriers--meet bad emotional experiences with good ones, but don't forget Jesus--the good news--the reason for all we do

Rooted network , not our network. The Root symbiotic engagement of roots in God Himself to engage the world in faithful witness.

Church is formed by living stones and the the church is living!

versus a church built by rigid stones and that church is rigid.

The London Institute for Contemporary Christianity has marvellous material around workplace engagement.

From Me to Everyone: 09:17 AM

Holiness people good at expressing holiness as negative and separation instead of beautiful and compelling and glorious and completely satisfied with God's love for the world and people.

Are we slow to love and accept, encourage and support and be in places where we are encountering others like us?

Is our organizational feature of holiness participation in church/mission activities instead of love and breaking down walls of hostility?

Reminting of holiness and revitalizing holiness lives--be holy, live it out, I am with you, be like Me--carrying the life of holiness in our being. Gift of God to us through Spirit and we display that by seeing people through eyes of love and see who they could be!

Cry of our hearts is to demonstrate in our own life the beauty and power of holiness and then to express it clearly to people what it means, getting rid of false ideas. Living in the true reality of Jesus in this generation in holiness not just the remnant idea.

Holiness is joyful, not a curse or a list of things we don't do. Enter into life joyfully but fully committed to Christ and then enter into the spaces He leads us into.

Jesus is attractive--the One we want to be with!! Do we live this reality?

Wholesome Holiness

It's tiring to switch on and off...who are we? What gifts has the Holy Spirit given me for every day life?

Salt is substance. NaCl. One molecule of salt same as a boatload of salt. But when mixed with other substances, not pure salt, it is worthless.

Light is a photon or a huge manifestation of light. Identity coming from inside to outside.

Salt is not visible. To be salt is in life is to live out your faith and makes the environment better. light is showing up in darkness. Riskier. Courage for when we need to let truth shine out. Jesus full of truth and love! Not balancing--just FULL of love and truth revealed.

From Me to Everyone: 09:28 AM  
Salt and light go together!

From Gabor Gyori dr. to Everyone: 09:32 AM  
Thank you, God bless yo all!

From Me to Everyone: 09:32 AM

I have personally seen and experienced how Gabor and his family have lived as salt and light!! Thanking God for his witness in Hungary and around the world! So grateful for him and his wife Gabi.

How to heal communities? Truth telling in right safe place/way. Resist defensive posturing. Receive truth. Wrestle and live in pain. Acknowledge. Take the pain early--addressing early on. Lament. Figuring out repentance. Look at role of confession and be willing to confess. Speaking truth to God, naming what has happened. Role of discipline in church. Until sin/hurt is spoken and brought into light, there can be no healing.

God does remarkable things when the truth is revealed and God takes care of the remnant! Takes courage.

Not easy or good but good came out of it.
